Furniture –

Reduce – Buy durable, good quality furniture that will last and remain in style. Consider refinishing or reupholstering to update old furniture.

Reuse – Consider purchasing from a used furniture store. Sell your old furniture instead of dumping it. Some charities accept donations of old furniture. Used furniture can also be bought and sold through the want ads in local newspapers or at garage sales.

Repair – Have old furniture repaired or reupholstered instead of buying new.

Disposal – Unusable furniture can be taken to the St. Louis County Solid Waste facilities. See [Facilities](#).
